WITHOUT PREJUDICE, RESERVING ALL RIGHTS

April 4, 2007

This is a formal acceptance of your Oath of Office as a united States Congressman, as a member of the Bar, and any other oath that binds you to protect me as a resident of these States of America and to uphold the Constitution of the united States of America.

Committee on the Judiciary

Senator Patrick Leahy
Committee on the Judiciary
United States Senate
224 Dirksen Senate Office Building
Washington, DC 20510

Dear Chairman Specter, Senator Leahy and Members of the Senate Judiciary Committee:

My ears perked up as I heard Senator Durbin refer to the availability of the 5th Amendment rights for the FBI agents during the Senate Judiciary Committee Hearings which were held on March 27. FBI Director Robert Mueller said his agents had not pled the 5th, but he was aware that it was their right. I was elated to learn that if the 5th Amendment applied to the FBI, surely it applies to me. When your brain and body is raped daily by seemingly thousands of viewers and listeners, via the occultic practice of artificial telepathy, the 5th Amendment is not taken into account. Under hypnosis, which is often used in Prisoner of War Camps, or under satellite surveillance, the brain has no firewall. When one is that exposed, anyone with the proper computer software and wireless connection can send their perversion to your brain, take your thoughts out tweak them and send them back, and no one is the wiser.

I have yet to understand what intelligence can be gained by sending electroshocks up my vagina or rectum. It's beyond me why the interest in the color underwear I put on or how I style my hair, yet these same people are prying into my every move, my every choice, and control most of the thoughts that go through my head. All the while the perps love to tell me when they have "framed" me through the use of these tactics.

When I first became a target of the Patriot Act abuse in 2003 (mental conditioning began as early as 1998 or earlier), I was told many things, among them were:

- This is whistleblower training
- You don't have any rights
- There is no justice for you
- You're being used to 'train' a state
- We want you to be our electronic slave

The voice-to-skull (Silent Subliminal Presentation System U.S. Patent # 5,159,703) used to convey these messages were that of mostly rough sounding men. The style in which I was being attacked was in the form of interrogation that I have since learned is consistent with CIA interrogation tactics and brainwashing associated with the MKUltra series/subprojects.

And the merchants of the earth will weep and mourn over her, for no one buys their merchandise anymore:merchandise of gold and silver, precious stones and pearls, fine linen and purple, silk and scarlet, every kind of citron wood, every kind of object of ivory, every kind of object of most precious wood, bronze, iron and marble; and cinnamon and incense, fragrant oil and frankincense, wine and oil, fine flour and wheat, cattle and sheep, horses and chariots, and bodies and souls of men." Revelations 18:11-13 (NKJ)

As I sit here now, there are electroshocks being sent to my vaginal area as a warning that I am not to proceed with this letter. Vaginal violation has become a calling card for these perperTRATORS of hatred in the name of mad scientists, Dr. Frankenstein, Master Illusionists, and magicians. I have since later learned that the true culprits of this abuse were actually local law enforcement agents being trained in terrorism tactics by the Intelligence Agencies with the aid of my former employer who is a major contractor with the DOD, DOJ, DOE, DHHS, CIA, and provides a home for NASA on their University Medical Center campus.

At the beginning of what I was to learn were Kubark Interrogation and CIA Torture tactics using Directed Energy Weapons, Radio Hypnotic Inter-cerebral Control, Electronic Dissolution of Memory and many other acts of the occult, the torturers told me they already had enough on me. Here I sit almost four years later with:

- Damage to my health
- Having been electronically sexually assaulted, radiated, sleep deprived and anything their brains could imagine since 2003
- Electronically induced dreams that radiate my head, eyes, face, neck and across my shoulders
- Had a man, who I have never been intimate with tell me of hair in the small of my back, that I did not even know was there. Apparently I have been the subject of physical examination as well, though I always sleep with clothes on, and how did they get into my home, who issued a warrant for my unconscious search?
- I have reason to believe that I have been gang raped and possibly sold into unconscious sex slavery, while I hear their voices-to-my-skull declare, "This is Police Academy."
- I have pictorial evidence of many violations to my person and property, including the fact that a key is used to access my car and my home. The torturers told me "you'll never feel safe again."
- Been made to watch my dad's demise while he was refused adequate medical attention. After my dad's death, the perperTRATORS informed me that my mom would be next. I live in constant threat of danger to my children and grandchild as well. They don't miss a day telling me, "You're dead."

I have asked the perps several times to take me and leave my family alone. The people in this town where I am forced to live are constantly at risk as they are being radiated while being drawn in to a bogus investigation that is not to end until my death. This targeting also seems to be a legalized neutralization of my person by my former employer who seems to have made me and my family a research project without my consent and without my agreement or knowledge, but it would be to their advantage to have me dead. They knew when I was placed in this "test", that it was to end in my death. The perps want to see if they can "make someone kill me"; they said they are "training assassins." When did the united States need civilian assassins in their arsenal of soldiers? What happened to the repentant hearts of the Tuskegee Syphilis Experiment hearings?

How can the united States of America/AMURDERica allow such cruel, inhumane and degrading treatment to be done to its own people? I read that a Mr. Locke in the 1700's, stated, "When the government declares war against its own people, the people are no longer obligated to obey them." It seems that the Patriot Act did just that. It gave the CIA and other Intelligence agents the license to declare and perpetrate any act of war against the very ones who fill their budgets and pay their salaries. Never mind that we are also the ones to whom they swore an oath to protect, serve, and uphold the Constitution.

In June 2005, I alerted Congress and many others of the violations of the Patriot Act against residents in the united States. In January 2006, I made a plea to Senator John McCain. Now I write to you. Can you swear to me, under penalty of perjury?

1. That slavery has been made legal since it was abolished in the 1800's by Abraham Lincoln? If not, what protections are in place to secure my freedom? The perperTRATORS told me that they would "sell my soul again." Apparently soul and body selling has become quite a commodity in America.
2. That the people of the united States do not have any rights? Has the Constitution been abolished? What about the Bill of Rights?
3. Does the color of law take precedence over the Bill of Rights, Civil Rights and Human Rights?
4. Who give the approval for a human subject to be volunteered for a government funded project, what rules apply, what oversight is given?

Revelations 18:11-13 (NKJ)

5. When evaluating Rights, what value or weight is applied to:
 - a. Police Brutality
 - b. Excessive Force
 - c. Double Jeopardy (I heard from law enforcement officers, "everyone is not in agreement with the way you are being treated.")
 - d. Reckless Endangerment
 - e. The Miranda Law
 - f. Rites of Habeas Corpus
6. How do you apply the principles of :
 - a. The Nuremberg Code
 - b. Torture Laws for united States residents
 - c. Foreign Intelligence Surveillance Act for united States residents
 - d. International Wartime Laws
 - e. Geneva Convention

At what point does Congress take note that sooner or later these bullies will be breaking down your doors to invade the privacy and bodies of your wives, husbands, children, grandchildren, and loved ones. How secure can the traveler's be to find out that the driver is asleep and the stage coach or the train is running wild, and out of control? At what point did Fidel Castro realize that a coupe was on the horizon? Mrs. Marco had to leave thousands of pairs of shoes behind in the closet when they were exiled. How many soldiers have to die in Iraq and children be sacrificed to the devil before someone stands up to the task and says, "The buck stops here?"

At the last hearing about the MKUltra experiments, the CIA and Intelligence agencies should have been abolished. Now the FBI should be included in this group. Can you be assured that your mind is not under their control? What about your spouse or loved one?? How do you know that you are not a subject in one of their cruel experiments called an investigation?

Enclosed are copies of letters written to Senator John McCain, Attorney General Alberto Gonzales, and Connie Chevalier, Dir. Clinical Trials and David Williams III, General Counsel, Vanderbilt University Medical Center. This correspondence was to either ask for help to end the torture or to make a written declaration that I have not nor do I want to participate in any non-consensual human radiation experimentation.

Three things I heard while on the campus of my former employer (via voice-to-skull technology) before I was terminated during medical leave.

- We cannot afford to allow you to hurt our funding
- Anybody can call the 800 number to report you as a terrorist. This was just after 911 and just after the Patriot Act took effect
- Nobody will risk loosing their retirement, their job or their family for you. They implied that bribes and blackmail would be used to gain cooperation
- To my face, a co-worker, who had been brought in over me to wreck havoc in my department made light of my plans to contact Johnny Cochran for help. I had not breathed that idea to anyone. She could have only acquired that knowledge by using technology to read my thoughts, either brain-computer link or brain-brain link, both of which are violations which prove that an employee would not stand a chance of any kind of plans to fight injustices or abuse of the institution.

I respect your position in the seat you hold in Congress. I would like to be able to respect your leadership in demanding accountability of all agents, agencies, universities and organizations that are using and abusing the Patriot Act as a tool for marketing and bartering over the souls of men, women and children in these states of America.

WITHOUT PREJUDICE, RESERVING ALL RIGHTS

April 12, 2007

This is a formal acceptance of your Oath of Office as a united States Congressman, as a member of the Bar, and any other oath that binds you to protect me as a resident of these States of America and to uphold the Constitution of the united States of America.

Henry A. Waxman, Chairman
Committee on Oversight and Government Reform
U.S. House of Representatives
2157 Rayburn House Office Building
Washington, DC 20515

Dear Congressman Waxman:

I learned of the contacts that many of the victims of government sponsored human radiation experiments have made with your office. I too am a victim/survivor of the abuses of Directed Energy Weapons in a war that is being waged against the American populace. This letter acts as my formal request and agreement for an investigation to be launched into the uses and abusers of these and other weapons of mass destruction while using the Patriot Act as a shield from redress and accountability.

On January 22, 2007 I wrote a letter to Attorney General Gonzales asking him if he gave written or other permission for the use of CIA Kubark Interrogation tactics on me. I was able to identify some of the abuse that I have endured since July 2003, in this Manual and learned that death threats were forbidden and certain tactics could only be used with the permission of the U.S. Attorney General. I have not received a reply.

Today, I have almost lost my voice from the use of Directed Energy Weapons targeted to my throat and affecting my Endocrine System. As of Sunday, April 8, I have noticed that my facial features are changing consistent with what is described as cranial manipulation used in trauma based mind control maneuvers. From an article entitled "***The Shocking Menace of Satellite Surveillance***", I learned that cranial manipulation can be achieved via satellite, and that such satellites are usually launched by NASA. In early March, I saw an Iridologist who, from examining the iris of my eyes, was able to identify many areas of my body where tissue damage can be found. The Iridologist stated that he feared that some of the damage could lead to cancer and without the cessation of the attack of the Directed Energy to my central nervous system; my nervous system will be permanently damaged. Within a week of this examination, I obtained the report from my Reflexologist, who after giving me a foot massage, was able to identify the exact same areas as did the Iridologist of weaknesses in my body.

Beyond a shadow of a doubt, the use of ionized radiation against my body and brain is having profound effect on my health. As you will see from the enclosed letter addressed to Senators Specter and Leahy, I have information on the perperTRATORS of these attacks on my person, and can relate at least some of the reason to retaliation for what was termed "Whistleblower Training."

Again, I join the other victims of human radiation experimentation using Directed Energy Weapons in asking that an investigation be launched and orders be issued to the powers that be to cease the use these weapons against the residents of these States of America.
