My name is Phillip Walker. I am a business owner, a webmaster, and a human rights advocate. In April I released a report for Congress and The Trump Administration detailing my extensive abuse as an activist and an insider of sorts who has witnessed technological crimes first hand. It is not up for interpretation with my experiences, I was approached by a secret society in 2007, and after rejecting their instructions have been neurologically tortured over 10,000 times.

You can find my report here: <https://pdf.universallaspects.io/Hi-Tech-War-Crime-Report.pdf>

If you carefully read the technology details in my report you will witness corroboration of these technologies as result of their release into the public domain within the next 35 years.

In Defense of Ramola Dharmaraj's Character

My experiences with Ramola Dharmaraj have shown she has impeccable sanity. Not only is she sane, she has fierce journalistic integrity in a field that is dangerous to have integrity in. To take away a completely sane person's child because she reports being assaulted by something fully documented to exist is the real insanity. Ramola's child is a straight A student for a reason. That comes from Ramola providing a healthy and conducive environment for success. Ramola has qualities that show me she is as good of a mother anyone could hope for and I feel Ramola is threatened with an incredible injustice here...

Why not ask the child if she thinks her own mother is sane?

Evidence

What Ramola writes about is credible once the evidence is fully assessed.

Evidence

"It is completely clear that the state which is first to create such weapons will achieve incomparable superiority."

**Major I. Chernishev, Russian Army:

"What is the next great weapon [after nukes], it is directed energy.[2]"
~**Ex-CIA Black Project Engineer Dr. Robert Duncan**

"This truly is the most sophisticated weapons system humanity has ever created, it involves every aspect of science...[3]"
~**Ex-CIA Black Project Engineer Dr. Robert Duncan**

"One can envision the development of electromagnetic energy sources, the output of which can be pulsed, shaped, and focused, that can couple with the human body in a fashion that will allow one to prevent voluntary muscular movements, control emotions (and thus actions), produce sleep, transmit suggestions, interfere with both short-term and long-term memory, produce an experience set, and delete an experience set. It would also appear possible to create high fidelity speech in the human body, raising the possibility of covert suggestion and psychological direction...Thus, it may be possible to 'talk' to selected adversaries in a fashion that would be most disturbing to them." ~**United States Air Force Scientific Advisory Board, New World Vistas: Air and Space Power For The 21st Century**

"He shows how, by electrical stimulation of specific cerebral structures, movements can be induced by radio command, hostility may appear or disappear, social hierarchy can be modified, sexual behavior may be changed, and memory, emotions, and the thinking process may be influenced by remote control."
~**World Famous Neuroscientist Dr. José Delgado**
1969 Book, Physical Control of the Mind: Toward a Psychocivilized Society

"These weapons aim to control or alter the psyche, or to attack the various sensory and data-processing systems of the human organism. In both cases, the goal is to confuse or destroy the signals that normally keep the body in equilibrium."

Punitive Psychiatry

While it is true that directed energy weapon attacks align to psychiatric philosophy, the science has been clearly demonstrated and has been factually observed for over 5 decades. Currently society only really considers the psychiatric point of view, this leaves targets of directed energy weapon assaults vulnerable to being misdiagnosed and forcibly oppressed. Right now you can buy handheld directed energy weapons from police catalogues. It is patently unacceptable that someone is attacked with directed energy weapons and then automatically branded insane with a completely one-sided investigation.

Punitive Psychiatry

From a Wikipedia Article: Political Abuse of Psychiatry

"Political abuse of psychiatry is the misuse of psychiatry, including diagnosis, detention, and treatment, for the purposes of obstructing the human rights of individuals and/or groups in a society. In other words, abuse of psychiatry (including that for political purposes) is the deliberate action of having citizens psychiatrically diagnosed who need neither psychiatric restraint nor psychiatric treatment."[1]

From a Wikipedia Article: Punitive Psychiatry in Russia

"There was systematic political abuse of psychiatry in the Soviet Union based on the interpretation of political opposition or dissent as a psychiatric problem."[2]

Punitive psychiatry is now installed in America, the UK, and other countries. Victims of neuro-abuse are met with mind destroying drugs, psychiatric detainment, and psychiatric kidnapping.

Recently in Belgium human rights activist Melanie Vritschan removed an implant that was lab tested and positive for titanium. While giving birth this was mentioned due to the removal of the implant being a health issue, despite the implant being physically removed and spectroscopically and electronically analyzed confirming the testimony of the activist, L'Hôpital Erasme in Brussels, Belgium psychiatrically removed the child (Amethyst Vritschan) from the mother's custody.
