In Defense of Journalist Ramola D/Dharmaraj

I am writing this character testimony of Ramola D/Dharmaraj in response to a shocking and vexatious false allegation against an investigative journalist, using her exceptionally talented, well-mannered, and lovely teenage daughter as a vessel to try and silence an accomplished and award-winning author, poet, and former college professor in her investigative reporting of serious crimes against humanity and systemic corruption which can be corroborated with FBI, CIA, NSA whistleblowers, other journalists, activists, and whistleblowers who are also victims of these crimes, and millions of victims globally who reach out to Ramola D daily with evidence and testimony about these heinous crimes against humanity and organized surveillance programmes of harassment, stalking, and voyeuristic torture.

Here is the complaint Ramola D received in which I am writing a character reference for: <https://everydayconcerned.net/2018/04/30/jit-press-release-quincy-central-middle-school-principal-richard-decristofaro-jr-makes-irresponsible-malicious-false-report-of-neglect-to-child-protective-services-against-s/>

As an investigative journalist, Ramola D is only reporting on facts, findings (such as unclassified documents from the military complex and Intelligence Agencies), and whistleblowers' testimonies. She reports as she finds with an unbiased agenda to get to the root truth of who, what, and how domestic terrorism under the guise of surveillance is being used against knowingly innocent civilians to silence and torture activists, journalists, whistleblowers, the highly intelligent, and the kindest and most compassionate human beings.

Ramola D's website is <https://everydayconcerned.net/> which is also supported by her whistleblower and testimonial podcasts https://www.youtube.com/channel/UCrcQ5JFUqWnniYozQhGnRhQ/videos?disable_polymer=1

Ramola D is also part of an investigative team, <https://jointinvestigation.org/> composed of human rights advocates, scientists, journalists, and Intelligence

analysts founded by Dr Katherine Horton (Oxford-educated particle physicist and former CERN particle physicist) which is collecting affidavits for serious abuses of torture/harassment/stalking for court cases and research. Part of their team also includes NSA whistleblower Karen Stewart who has offered to make her affidavit public for use in anyone's court case exposing Intel torture/harassment/stalking programmes. Karen Stewart is retired from the NSA with 28 years' experience, passed every polygraph taken, of honorable character and service, and has been found by several psychiatrists to be mentally healthy. Here is the article by investigative journalist Ramola D reporting on NSA whistleblower Karen Stewart's factual findings on serious crimes against humanity and deep state systemic corruption of power with global reach & consequences for the lives of millions worldwide:

<https://everydayconcerned.net/2018/02/07/deep-state-treason-nsa-whistleblower-karen-stewart-reveals-massive-surveillance-abuse-of-innocent-americans-civilians-worldwide-beyond-fisa-memo-biggerthanreleasethememo/>.

Most of Ramola D's team members have irrefutable proof of non-consensual implants/microchips used for torture and mind-body control of victims. Here are two videos of her colleague Dr. Millicent Black showing some of her medical evidence of 54 non-consensual implants around her body:

<https://www.youtube.com/watch?v=Pxjab5BCj70>. Another video showing disintegration and mushy bones for enforced major surgery on her leg due to microwave directed-energy weapon torture:

<https://www.youtube.com/watch?v=r-qWZ0aEval>.

Here is the investigative report of factual findings and evidence of Dr Millicent Black's case written by Ramola D:

<https://everydayconcerned.net/2017/05/25/electronic-slavery-in-america-military-neuro-weaponry-used-contractually-by-us-air-force-veteran-to-abuse-exemplary-and-highly-accomplished-tennessee-woman-pastor-control-town/>.

Ramola D's reporting is supported by a plethora of research and evidence on these topics and can be found by anyone willing to put in the time to research Deep State voyeuristic torture, stealth weaponry, and systemic corruption.

Ramola D is also inundated with whistleblowers sending her files of resources, research papers, books, unclassified documents supporting

millions of victims' testimony of torture and abuse.

Yet another one of Ramola D's colleagues has evidence of non-consensual implants: Melanie Vritschan, a human rights advocate and founder of ICATOR, <http://icator.be>, (International Coalition of Electronic Torture and Robotisation of Living Beings) has had the partial removal of one of her non-consensual strangulator implants removed, which is shown and discussed in two videos with a former International Criminal Law Judge and lawyer Alfred Webre: Part One: <https://www.youtube.com/watch?v=WB5uhlvYdiI>; Part Two: <https://www.youtube.com/watch?v=V2pNOTVfk4U>. Here is one of her podcast interviews Ramola D has conducted with Melanie Vritschan about her human rights organisation and the research she is conducting with a Belgian University on directed-energy weapons and non-consensual implants to help in victims' court cases: <https://www.youtube.com/watch?v=3B5J582VaZw>.

It is due to Melanie Vritschan's research into stealth neuro/electromagnetic directed-energy weaponry now being recognized globally and the evidential removal of a strangulator implant that has led to the malicious and vexatious illegal kidnapping of her newborn baby after she gave birth under the false pretence of using the Mental Health Act against her despite evidence of the strangulator implant she has had removed, with another one remaining in her throat as well as other non-consensual microchips. Here is the investigative and factual reportage by Ramola D of the heinous crimes against humanity and torture committed against Melanie and her newborn daughter: <https://everydayconcerned.net/2017/12/21/newborn-baby-amethyst-traumatically-separated-from-mother-still-being-held-via-abusive-psychiatry-in-erasme-hopital-brussels-belgium/>

It is because of victims' evidence and testimony, supported by FBI, CIA, NSA, MI5, MI6 whistleblowers' testimony and evidence of the illegal use and abuse of dangerous stealth weaponry used in insidious and covert torture programmes in cahoots with police, councils, hospitals, in particular, Mental Health departments, that malicious and vexatious false allegations and set-ups are used to intimidate and silence whistleblowers, activists, journalists, and victims. Whereby authoritative bodies misuse their powers to ignore all reasonable and irrefutable evidence supporting a victim's case and write falsified reports against a victim's name, make no effort to disprove or show

any investigation whatsoever into a victim's complaint or evidence, thereby leaving the victim further victimized with a trail of falsified reports defaming their honourable character. There are many victims like Melanie Vritschan who can show pre-meditated set-ups against them to intimidate and silence, and hinder or prevent the victim from receiving help. Ramola D has also written a factual investigative reportage of punitive psychiatry as part of the cover-up process of torture programmes that targeted victims are placed in: <https://everydayconcerned.net/human-rights/clandestine-classified-human-subject-experimentation-using-emf-radiationsonicultrasonic-neuroweaponry/paranoid-schizophrenia-tool-of-the-red-terror-makes-a-comeback-in-authoritarian-usa-other-western-democracies/>. Here is another website exposing weaponized psychiatry: <https://www.zersetzung.org/weaponized-psychiatry>

It is impossible with any integrity to put 'neglect' against Ramola D's name and her teenage daughter who has an outstanding academic performance like both her accomplished parents and who is of the age to decide for herself where she feels happiest to live (at home) and with whom (her parents). Ramola D's daughter has a flourishing and active out-of-school social and academic life, where Ramola takes her to all these activities to expand her mind and social interactions. It is unconscionable to use Ramola D's investigative reporting and knowledge of factual findings and evidence of serious abuses and crimes against humanity against her when there is a plethora of evidence and ways to prove the misuse of stealth weaponry and non-consensual implants and microchips on civilians in USA, UK, Europe, and globally.

Many whistleblowers and victims from all around the world daily contact Ramola D for support and to share their evidence and testimony, and trust in Ramola to confide personal and intimate torture and abuses that they have received. I, myself, am in regular contact with Ramola with evidence of recordings of overt harassment, discrimination, death threats shouted to me daily round the clock by paid perpetrators who stalk me 24/7 which is organized by police and councils who I also have on recording shouting the same abuses with the perpetrators they use.

If any loss to Ramola D's or her daughter's human rights, dignity, or freedom should occur, it will be considered by our community of whistleblowers and

victims as an infringement on all our human rights, evidence, and testimony. Wikileaks has published a plethora of evidence about the use of directed-energy weapons globally; nearly 10,000 research results:

<https://search.wikileaks.org/?q=directed+energy+weapons>. Journalist Suzie Dawson has also written about her findings on directed-energy weapons from the leaks published on Wikileaks:

<https://decipheryou.com/2015/06/24/hacking-team-directed-energy-weapons-now-operationally-feasible/>.

Ramola D is part of a World Treaty Conference banning the use of neuro/electromagnetic directed-energy weapons for use on civilians to put an end to voyeuristic torture, mind-body control of victims, serious abuses of crimes against humanity, and a silent global holocaust:
