Dr. Edward L. Spencer

To Whom it May Concern

Re: Ramola D

I am a graduate of Stanford University, Yale Medical School, and the Neurology Residence Program at the University of California, San Francisco. I have known Ramola D since January 2017 and have communicated with her regularly.

I sought out Ramola specifically because of her high intelligence, high character, and her excellent work in Journalism. I have talked with her frequently about the accomplishments of her daughter who is a straight A student. That CPS is investigating Ramola is ridiculous, and the person who reported her to CPS slandered Ramola by this action and should be investigated for ulterior motives.

This sad, cruel, stupid, bureaucratic assault on a high functioning American family shines a very bright light on an anti-human system, a failed system that should be abolished, then built over from scratch according to the principles of high ethics, honesty, diligence, conscience, and compassion. It should be based on the well-being of human society, and not based on destroying families for a buck.

Respectfully,

Edward L. Spencer, MD
