Re: Recommendation Letter of Ramola Dharmaraj

To whom it may concern:

Ramola D/Dharmaraj is an outstanding and respected member of this country. Ms. Dharmaraj is also a journalist and has done extensive research on human rights abuses to American citizens. She has interviewed many significant whistleblowers and federal agency employees that have exposed corruption in government.

Targeted Justice was formed in 2017 also to research and expose government abuses to innocent victims. Targeted Justice is committed to pursuing education, public awareness, and legal action for Targeted Individuals and victims of hate crimes.

Targeted Justice supports Ramola Dharmaraj. It is our understanding that she discussed abuses and crimes to her and she is being threatened in a disparaging way, even wrongly reported to the Department of Children & Families, for her claims, just because the covert crimes have not yet being fully exposed.

Targeted Justice is currently in the process of exposing these crimes. Targeted Justice encourages officials to act in a civil manner and not attack victims when they speak up.

Sincerely,
