Declaration of Ramola D/Dharmaraj, Investigative Science and Technology Journalist in Support of the Competence of Todd Giffen to Stand Trial May 21, 2019

As an investigative Science and Technology journalist researching and reporting on matters of ethics in science and technology today, I would like to state unequivocally that the statements made by Dr. Cynthia Low and US Attorneys Billy J. Williams and Joseph H. Huynh in suggesting that Todd Giffen is delusional, schizophrenic, psychotic, and mentally incompetent are categorically false, questionable, adversarial, discriminatory, and persecutory. Not merely does Todd Giffen have no history whatsoever of schizophrenia, his reports and claims of being a victim of non-consensual neuro experimentation under covered Government projects are in no way delusional but highly plausible and a matter of great concern to all humane, ethical, concerned citizens and human rights advocates in Oregon, USA, and the world over: what he is reporting is nothing less than profound Crimes Against Humanity. Military scientists, leading neuroethicists, neuroscientists, medical officers, journalists, and Intelligence agency whistleblowers from the CIA, FBI, NSA, and DOD confirm the truth and accuracy of his reportage. Further, case law and published affidavits exist to prove that several non-consensual implantation and neuroexperimentation victims have taken the US Government to court and obtained settlements. Todd Giffen's mental competency should not be called into question by his reportage or mention of these existent neurotechnologies and secretive government testing programs, knowledge of which indicates cogency and depth of scholarship, not schizophrenia.

PROOF POSITIVE OF SECRETIVE NON-CONSENSUAL GOVERNMENTAL EXPERIMENTATION ONGOING IN THE UNITED STATES OF AMERICA: NOT A CONSPIRACY THEORY

- 1. Amy Gutmann, President, University of Pennsylvania, Chair, Presidential Bioethics Commission, 2011, has published her awareness of Undisclosed Classified Non-Consensual Experimentation**

Leading bioethicists in the USA have stated that **unethical government research is being federally funded**, that covered, undisclosed **classified experimentation is indeed going on inside the United States**, and that **they are not being given full disclosive information on human subject experimentation** from the CIA and the US Government.

In President Obama's Presidential Bioethics Commission's report released on December 15, 2011, Amy Gutmann, Chair concluded that although the 55,000 research projects (involving human subjects) they knew of needed to be archived and databased, they 1) "cannot say that all federally funded research provides optimal protections against avoidable harms and unethical treatment," 2) the Commission did not know about the scope and depth of classified research involving human subjects since covered agencies had not provided data, and 3) stated that she had learned **the CIA was most definitely conducting research on humans within the United States,** on which they were refusing to provide details.

"For example, the CIA did not submit project-level data to the RPD (Research Projects Database) because "the application by the C.I.A. of certain research results may implicate intelligence sources and methods, and thus cannot be discussed in the public domain." Letter from V. Sue Bromley, Associate Deputy Director, Central Intelligence Agency to Amy Gutmann, Ph.D., Chair, Presidential Commission for the Study of Bioethical Issues. (November 15, 2011). The CIA confirmed that all CIA-sponsored human subjects research is conducted in the United States – not abroad."

Footnoted in the updated 2012 version of the 2011 report MORAL SCIENCE/Protecting Participants in Human Subjects Research, Presidential Commission for the Study of Bioethical Issues; Discussed further here: No Waivers of Informed Consent, PERIOD: The Public Reports Ongoing Non-Consensual Experimentation and Demands the Common Rule Protect Citizens, Not Covert Activities/

2. **James Giordiano, Military Neuroscientist, Head of European Union Human Brain Project, Professor of Integrative Physiology in the Department of Biochemistry, and Chief of the Neuroethics Studies Program in the Center for Clinical Bioethics, at Georgetown University, has stated that Military Neuroexperimentation is currently ongoing in the United States, that the brains of select targeted individuals are being studied,** and that morbidity and mortality—which human rights advocates would term Crimes Against Humanity—attend the process.

Note also that Dr. Giordiano has published video lectures revealing that he is working both with the Department of Defense and the Department of Justice in Neuroexperimentation projects which include Neuro Modification, Neuro Surveillance, and Neuro Monitoring.

"The brain is the next battlespace.... We are targeting the brain.... Like (in) any race, the morbidity and mortality, going at this speed, with this level of integrity and this level of momentum, is real. We are tracking neurological or brain

signatures of key targeted individuals that are thought to represent whole groups....I can utilize neuro-pharmacologics and various forms of brain stimulation to extract information from key intelligence targets....TITAN (Tiered-Integrated Tracking and Access Networks) utilizes biologically-implantable chips to track key individuals and provide information about the way brains work to create narratives and behaviors...we are moving into the operational space. i.e., it is being used....High-output sensory stimulators (can be administered by UAVs (unmanned aerial vehicles), drones, or insect borne, or by large vehicles; cars, or tanks). These use sensory mobilizing agents that use high electromagnetic pulse energy that may also use high levels of sound and light energy and they disrupt neuro sensory functions. These are being used.”

--Dr. James Giordano, from Dr. Eric Karlstrom's article, “Appendix 58: Dr. James Giordano (2017)-Weaponized Brain Science and Technology: Battlespace/ Organized Stalking Applications of Neuroweapons (youtube, pdf, and my notes)” --<https://911nwo.com/?p=6464>

3. **C. Forrest Faison III, the US Navy Surgeon-General has stated (Feb 6, 2019) through a spokesperson at an Emerging Biodefense Conference that Neuro Cognitive Weapons have been developed** and pose an emerging technological threat to American soldiers – suggesting both the fact of such weapons in the “emerging operational battlespace” (implying that such neuroweapons are already being developed by the US as well), and the need for military health care to address their effects.

"The Navy Surgeon General's office has done some stellar work in identifying non-kinetic threats that are part of the emerging operational battlespace. And they identify that one of the most threatening of these new non-kinetic threats is Neuro Cognitive Weapons, which is essentially a means, a technology that can induce advanced Alzheimer's symptoms in a matter of days in our troops. And there is no, to the best of my knowledge, there is no ongoing research within the military health system to advise physicians and to identify and treat this health effect.”

--Debra D. Schnelle retired US Army Officer, medical planner to members of Congress at a Blue Ribbon Study Panel on BioDefense, Feb 2019/Public Disclosure on Neuro Weapons & Neuro Technologies In Use Today/<https://everydayconcerned.net/about/ramola-dreports/todays-science-and-technology/public-disclosure-on-neuro-weapons-and-neuro-technologies-in-use-today/>

4. **Robert Duncan, Harvard PhD, DOD/CIA scientist with background in Cybernetics, Artificial Intelligence, Neuroscience has stated that unethical neuroexperimentation projects involving Brain Computer Interface technologies, Neuro Hacking, EEG Heterodyning, Synthetic Telepathy, and Neuro Programming are indeed being run**, that these are compartmentalized black projects, and that he was personally responsible for helping develop some of these invasive, intrusive, and destructive neurotechnologies.

Dr. Duncan also testifies to the secrecy of field weapons testing in the USA of Electronic

Warfare “non-lethal” weaponry also referred to as anti-personnel Directed Energy Weapons—which are publicly being contracted by the US Air Force, US Marine Corps, US Navy, and US Department of Defense to Defense companies for weapons-testing, while information on field testing is being concealed under classified covers and redacted on FOIA requests for information.

“I ignorantly participated in building cogs for the subsystems of the machine, like the Jews who dug their own graves in the Nazi Holocaust...But I assure you that I am not alone. Indeed, most scientists and engineers working on DoD projects have no idea how the pieces ultimately fit together and how the system as a whole will be misused...

“Colonels involved with the EEG heterodyning weapon claim they have demonstrated its lethality many times. I have since identified many people they have killed in this way.”
--Dr. Robert Duncan, *The Matrix Deciphered*

“There are so many brave men and women serving in the armed forces who fight and protect us for the American values they believe in. But because of the silos of information called compartmentalization in the security agencies and the lack of accountability and oversight of black operations and some top secret projects, diabolical elements become rogue or worse destroying the very country they are tasked with protecting turning it into a hypocrisy rather than a democracy....

This has been my project for about two years, investigating government corruption, incompetence, and cover-up upon which I accidentally stumbled one day while looking at a reverse MRI scheme to inject electromagnetic signals into the brain for virtual reality applications. I have interviewed over two hundred people and worked on the highest level of military projects for the U.S., NATO, and U.K. and have given videotaped testimony to senators and representatives on this topic resulting in lip service since they have no real power to enforce. Two high level FBI agents and a couple CIA agents have come forward to validate the existence of a MKULTRA like project that continues to grab random people for mind control experimentation. Two of these have since become part of the program and endure daily psychotronic tortures. All the torture can be done using directed energy psychotronic weapons.”

--Dr. Robert Duncan, *The Matrix Deciphered*, pp 10

“There are many stake holders. A weapon more powerful than the atomic bomb for influencing populations is quite sought after by many countries. It is another arms race.

When weapons are “field tested” they need to be very secretive. The database for the probability matrices of the efficacy on each culture and language needs to be done for improvements, development, and evolution of the AI system.”

--Dr. Robert Duncan/Robert Duncan, Regarding 6/10 NYT Article on Gang-Stalking & Targeted Individuals: “When Weapons Are “Field Tested” They Need To Be Very Secretive”<https://everydayconcerned.net/2016/06/11/robert-duncan-regarding-610-nyt-article-on-gang-stalking-targeted-individuals-when-weapons-are-field-tested-they-need-to-be-very-secretive/>

5. **Representative Jim Guest (R, Missouri) revealed to the nation in 2007 that non-consensual RFID implantation and tracking of Americans with Verichips was ongoing, and had been ongoing for decades before Verichip was manufactured.** He also revealed knowledge and awareness of electronic weapons torture and organized stalking and harassment run on Americans and asked members of the Legislature to assist in ending these abuses.

“I am asking you to play a role in helping these victims and also stopping the massive movement in the use of Verichip and RFID technologies in tracking Americans.

Long before Verichip was known we were testing these devices on Americans, many without their knowledge or consent. With the new revelations of the cancer risk besides the privacy and human (rights/health) problems with the use of Verichip and RF signals, I am asking for your help in stopping these abuses and aiding those already affected.”

–Representative Jim Guest's letter to Members of the Legislature, October 10, 2007. His letter is posted at:<https://everydayconcerned.net/ti-station/representative-jim-guests-letter/>

6. **Lynn Surgalla, Vice-President of the US Psychotronics Association informed Congress in 2005 that the testing of Non-Lethal Weapons on Americans and citizens worldwide was illegal and unethical, and that there was no such thing as a non-lethal weapon,** they were all illegal and criminal weapons of torture and lethal at certain doses and intensities; she also advised that Remote Neural Monitoring was one form of psychotronic weaponry which was being used to terrorize populations.

“As Former Vice-President of the United States Psychotronics Association, I assure the Congress that the illegal testing, development and use of Psychotronic, Microwave, Laser and other forms of Electromagnetic Directed Energy Weaponry is a matter of grave concern to both the US and International Communities. These weapons are ALL potentially LETHAL, although sublethal injuries may also be inflicted as with the use of any other lethal weapon such as a gun, knife or chemical poison. Assault and Battery and/or torture/murder with any form of Directed Energy Weapon IS Assault and Battery and/or torture/murder with a LETHAL WEAPON. Despite claims to the contrary by criminal elements in our own government, there is NO SUCH THING as a NONLETHAL WEAPON (even those currently in vogue for “Slow Kill” torture-interrogation by war criminals worldwide).”

--Dr. Lynn Surgalla, Letter to Congress, 2005, for use also in court

“COMPUTERIZED TELEMETRIC REMOTE BRAIN MONITORING (Remote Neural Monitoring RMN) is ONE form of PSYCHOTRONIC WEAPONRY (similar to a cell-phone network which DIRECTLY ATTACKS THE BRAINS & BODY ORGANS OF THE UNSUSPECTING PUBLIC with a COMPUTER-MULTIPLEXED “SYNTHETIC (artificial) TELEPATHY” NETWORK).”

--Dr. Lynn Surgalla, Email sent 29 October 2008 to the Department of Justice, titled “SUBPOENA ALL GOVERNMENT & MILITARY DOCUMENTS CURRENTLY

7. Senator John Glenn revealed in 1997 with his sponsorship of the Human Subject Research Protections Act, Bill no. 193 (which regrettably was never passed) that non-consensual human experimentation was ongoing in the United States:

“The first principle of the Nuremberg Code states that the voluntary consent of the human subject of research is absolutely essential. Unfortunately, as we look back through our history since the late 1940's, it appears that researchers in America may not have taken all that Nuremberg lesson completely to heart.

I ask my colleagues what the following names might have in common: thalidomide, Tuskegee, and Willowbrook?

Well, the answer is that these are all sad examples of unethical research conducted in the United States, and in the United States well after the Nuremberg Code was issued, adopted and worldwide attention had been focused on some of the abuses of that time during World War II.

Given this history, I find it astounding that even after Nuremberg, the thalidomide babies, Willowbrook, Tuskegee and the cold war radiation experiments, and who knows how many other cases, we still don't have a law on our books requiring that informed consent--those two words, `informed consent'--be obtained prior to conducting research on human subjects.”

8. Senator Dennis Kucinich (Ohio) sought to introduce the Space Preservation Act in 2001, also never passed, via H. R. 2977, which clearly indicates that biologically-affecting energy weapons were being used on populations, which needed to be banned. The weapons this Act sought to ban were defined as:

“(III) directing a source of energy (including molecular or atomic energy, subatomic particle beams, electromagnetic radiation, plasma, or extremely low frequency (ELF) or ultralow frequency (ULF) energy radiation) against that object; or (IV) any other unacknowledged or as yet undeveloped means.

(11) Inflicting death or injury on, or damaging or destroying, a person (or the biological life, bodily health, mental health, or physical and economic well-being of a person)

-- (I) through the use of any of the means described in clause (i) or subparagraph (B);

--(II) through the use of land-based, sea-based, or space-based systems using radiation, electromagnetic, psychotronic, sonic, laser, or other energies directed at individual persons or targeted populations for the purpose of information war, mood management, or mind control of such persons or populations.”

9. Police Chief Michael Basgall in Clovis, California examined in 2013 the question of psychotronic neuroweapons including Voice to Skull technology as a future tool for use by PDs and concluded they had “the potential to be a great tool for law enforcement” but would “require complete public support” since “the public may be strongly adverse to its use by law enforcement due to its extremely intrusive nature.”

DOCUMENTS TESTIFYING TO USE OF HUMAN SUBJECTS FOR TESTING OF NON-LETHAL WEAPONS, BIOWEAPONS, AND NEUROWEAPONS

Numerous declassified documents and reports testify to the use of human subjects by military and Intelligence agencies for human effects testing and bio-behavioral research, and to the Government's interest in using technology for behavior control of populations including:

CASES INVOLVING AMERICAN CITIZENS SUING THE US GOVERNMENT FOR NON-CONSENSUAL IMPLANTATION AND EXPERIMENTATION

Over the past few decades, numerous US citizens have undergone radiological scans, toxicological analyses, SCADA analysis and [proved the presence of non-consensual RF implants and Wireless Body Area Networks in their bodies](#), found to be FCC-licensed to Universities, military bases, and private corporations, clear evidence of their bodies being non-consensually used in experimentation without Informed Consent. Some have had implants surgically removed and sued the US government, including:

- **Richard Cain vs Barack Obama, Department of Defense, CIA, Space and Naval Warfare Systems Command (SPAWAR) et al.**, Civil Action CV14-05375, Filed in the US District Court of California, July 23, 2014; The Richard Cain lawsuit is here: <https://everydayconcerned.files.wordpress.com/2019/03/cain-v.-department-of-defense-et-al.pdf>
- **David A. Larson And Brandi Lynn Baker Vs. Central Intelligence Agency, Leon Panetta**, in his individual capacity as Director, CIA, Eric H. Holder, Jr., Attorney General, Alberto F. Gonzales, Stephen Kappes, Joseph H. Schulman, San Bernardino County Sheriff Department, Bureau Of Prisons, Alfred Mann Foundation and George H.W. Bush; United States District Court/Central District Of California - Case No: CV- 09-01296; Filed in 2011 at the US Court of Appeals, June 21, 2011, Ninth Circuit Court; The David Larson Report is here: <https://everydayconcerned.files.wordpress.com/2019/03/larson-report-edit.pdf>

In the face of such clear-cut evidence of ongoing non-consensual implantation and experimentation as detailed above as well as existent Neurotechnologies and Directed-Energy Weapons, there is no evidence to this reporter that Mr. Giffen is delusional when he mentions these nor that his “ideas” regarding EMF/Neurotechnologies or NSA ESP and Military Psychological Operations (such as harassive whistling) being used on him and others, as contained in his public-education and humanitarian activism efforts (via websites and posted documents) to raise public awareness are in any way delusional.

The purpose of my Declaration is to establish that it is [absolutely not a sign of “delusion,” “paranoia,” or “schizophrenia” when anyone reports or mentions the suspected use on their person of emerging electromagnetic technologies or emerging remote neural monitoring neurotechnologies such as Remote Viewing, NSA ESP, BCI](#)

(Brain Computer Interface) or Neuro Imaging technologies, or wireless telemetry (RFID microchips, WBANS, nanotechnology, bio-sensors and implants).

Whether some of these technologies are indeed being used on someone can be determined by scientific diagnostic means such as medical radiology, toxicology analysis, Faraday cage Radio Frequency emission measurements and the use of spectrum analyzers and microwave detection devices, as several human rights organizations and groups in Europe and the US such as ICAACT (icaact.org) and ICATOR (icator.be) have been reporting.

Doctors and psychiatrists as well as city, court, or Law Enforcement officials may need to know that not only do these technologies exist, they are being used covertly against citizens today in highly invasive ways which constitute distinct crimes against humanity.

I have discussed Todd Giffen's ability to understand the charges against him as well as the nature of the legal proceedings against him, as well as his ability to work together with counsel on his defense—the basic criteria for establishing mental competency in court--in my article on his situation at <https://everydayconcerned.net/2019/04/06/todd-giffen-whistleblower-on-non-consensual-govt-neuro-experimentation-held-on-charges-of-interstate-threat-stalking-after-messages-sent-to-senators-reports-serious-statutory-violations-in-e/>. I believe Todd is mentally competent based on all above, and perfectly capable of standing trial—he is in no need of “restoration” of competency when his mental competency is not in doubt at all.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct and that this declaration is made and executed by me in Quincy, Massachusetts, on this 21st day of May, 2019.

Sincerely,

Ramola D//Dharmaraj
