2019 06 19 Transcript of Kidney Ambulatory Care Unit Mental Health Fraud in Equity Lawyer

Edward William Ellis

Dr Lever: I want you to be seen by, I think you should be seen by the psychiatric services here.

Mr Ellis: I refuse

Dr Lever: Yes but at the moment these processes are not absolutely not going to recognise....

Mr Ellis: They've screwed up

Dr Lever: I'm not going to argue with you. I'd rather, What I am saying is, all I want to do...

Mr Ellis: I am giving Notice to Parliament

Dr Lever: I'm not interested, I am saying

Mr Ellis: I'll finish

Dr Lever: Please, I'm saying I'm not interested, I'm not interested I am saying for you to have a mental health assessment

Mr Ellis: A decision is being made this week, I will finish the grounds this week

KNOCK KNOCK

Ms Berry: Sorry, Hi,

Mr Ellis: Hello Do Sit down

Dr Lever: Who are you

Ms Berry: I'm with Edward

Mr Ellis: This is Neelu Berry

Dr Lever: Oh Hello! Hi

Mr Ellis: She has consent to sit

Dr Lever: Hi I'm Dr Lever I am a kidney Consultant Hi So what I am saying is, what I am saying to Edward is that he has, so I have received correspondence from his GP, and I've also received correspondence from Dr DiarMaid-Gordon who was one of his consultants when he was seen at the Royal Sussex County in Brighton in March 2019. Dr DiarMaid-Gordon, Dr Bukhari and myself have concerns 1. About Edwards kidney failure OK Right Because Edward does have kidney failure in terms of his kidney function is less than 10% of what it should be. So Edward is at the level where we need to think about starting dialysis treatment

Ms Berry: Can you show me the tests that you've done

Dr Lever: So I've got all the tests over here. This is the creatinine level. The creatinine level today is 791

Ms Berry: And can I see that it is his blood test and not somebody else's blood test

Dr Lever: This is his address Edward Ellis Ok Alright It's been around that time.

Ms Berry: He's just started a lot of activities with the swimming and walking

Mr Ellis: I just swam 36 lengths on Friday

Dr Lever: His Creatinine was 686 in March and now it's 791. The normal level for someone like Edward would be less than 90

Ms Berry: Yeah but He is very fit for his age, he's not a very good drinker, he's been dehydrated because he doesn't drink very well

Dr Lever: Right ok so this is going to be very helpful What I want to do is I would like to admit Edward to hospital today in order for us to review both the requirements and both how we logistically can start dialysis treatment

Ms Berry: What he would like is an independent second opinion

Dr Lever: So he has been seen by Dr MacDiarMaid-Gordon

Mr Ellis: Please let us cut to the chase on this

Dr Lever: mmm

Mr Ellis: I need to give priority to the next communications for the lord Bishops I will do that tonight.

Ms Berry: Right so he will come back tomorrow

Mr Ellis: What you need to know is there are many Doctors who are subject to Disclosure restraint frauds

Ms Berry: Edward I think we should just walk out of here, we don't require your services

Dr Lever: But you do require our services

Ms Berry: We don't

Mr Ellis: Neelu

Dr Lever: I am the clinical lead of kidney services in this Hospital

Ms Berry: But you are outside your remit with the mental health

Dr Lever: No no no no, I know I am, I know I am, absolutely, and I agree with that I agree with that I completely agree with that in terms of the

Ms Berry: It's that conflict that you've abused and we are not interested in your services

Mr Ellis: No please allow me to conduct

Dr Lever: Allow me to speak please What I am saying is what I would like to do in order to deal with this and as you are quite right I am not a mental health specialist at all And you've got no delusion evidence

Mr Ellis: No In which case what are you doing requiring mental services with a delusion deficit

Dr Lever: Because of the fact that you've been labelled as having that historically so I would like to

Mr Ellis: Yes and that has been subject to a blackmail criminal investigation

Dr Lever: All I was asking for was

Mr Ellis: No no no, you have taken crime proceeds and said that you want to use them for medical purposes. That's what you've done

Dr Lever: All I'm saying that I would welcome a further assessment by somebody

Mr Ellis: You are not having, you are enforcing a mental health fraud which itself was crime proceeds, that ends.

Dr Lever: I've started a new assessment

Mr Ellis: That is not a new assessment

Dr Lever: It's the first time, I haven't met you before

Mr Ellis: What you haven't done is asked for any of the evidence to support my position

Dr Lever: I am asking simply

Mr Ellis: No no It is how they run the frauds is they ignore the evidence of the citizen and just decide..

Dr Lever: Right I'm going to get somebody else in here No we are going

Ms Berry: Edward lets go

Mr Ellis: You cannot be trusted with the process. I have to write the next set of Communications to the lord Bishops tonight

Dr LEVER PRESSES AN ALARM BUTTON

Dr Lever: Can I have somebody else in here please

Mr Ellis: Let me have the written evidence on which you rely

Ms Berry: Edward Edward

Dr Lever: Come back and sit down again

Mr Ellis: No

Ms Berry: Lets go

Mr Ellis: You are going down for this

Ms Berry: Edward stop it
