

Letter to DOJ Attorney General

August 20, 2019

The Honorable  
William Pelham Barr  
Attorney General  
U.S. Department of Justice  
950 Pennsylvania Avenue, NW  
Washington, DC 20530-0001

Dear sir,

I am writing to you in regard to grave concerns about not only FISA Abuse and surveillance abuse in regard to our duly elected president but to tell you that I know first-hand about such abuses because I am one of estimated thousands of innocent Americans who have been illegally and unethically targeted for years by DHS FBI Fusion Centers merely to bloat the Watch List in order to gouge the American tax payer for over-inflated budgets for this nascent Police State take-over. The monies would further appear to be totally unaccountable, encouraging abuse of the system.

As a law-abiding citizen, I was blind-sided by the effects of being put under “enhanced surveillance” without warning or real cause. It took me a while to research what was happening to me but this apparently is a program indistinguishable from the old Communist East German Secret Police “No Touch Torture” psychological operations conducted against East German dissidents. Look up “Stasi” and “Zersetzung”. The goal was to so destroy every facet of the person’s life by slander, libel, stalking harassment, blackballing him from decent jobs or any job, completely isolating him from friends and family either by lies or threats, that he ends up dead from induced health issues or suicide. Voilà, no more dissident.

Unfortunately, Homeland Security has “added value” to this heinous program by introducing the notion the person is now secretly declared a non-person and may be extrajudicially killed. Access to them is “sold” to various Military Industrial Complex (MIC) contractors, actual military, and medical labs and corporations to remotely experiment on them as “biospecimens” requiring no consent.

Victims report discovering that they have been covertly chipped, to not only track them real time, but to aid in precise weapons targeting on them anywhere and everywhere they go. Like the American diplomats attacked in Cuba (2017) and China (2018), they are exposed to “sonic” type weapons (Radio Frequency weapons in the microwave range) as well as various other electromagnetic, *mobile* antipersonnel Directed Energy Weapons (DEW) so precise, you can injure or murder a person in one apartment without his neighbors knowing. While few people know about these weapons, there are

thousands of patents proving not only their existence, but that there is a new highly competitive arms race in the development of such weapons - from huge DEW meant for the war theater to mobile ones meant for crowd dispersal (“non-lethal”), to lethal antipersonnel or covert assassination purposes.

War grade toxins, gasses, and poisons have also been reported as being “tested” on these people wrongfully accused and denied their rights. Police, medical personnel, lawyers, coroners, etc. are bullied by Fusion Centers to not aid the person or sabotage their services for or concerning the person to help cover up the seditious and treasonous crimes. They are told to stick to the narrative that the victim is “mentally ill” and his claims should be dismissed.

Such extreme experimentation on thousands of human beings gathers data that enables the MIC to attract investors and buyers (billions of dollars of potential profit), but no rational human being would consent to being targeted up to the point of and including permanent health damage or an unimaginably painful death. That is where the fraud Watch List comes in. Anyone at all can be secretly nominated with no criteria, no oversight and a main Fusion Center is then tasked to fabricate a false dossier on the person upon which to predicate the Fusion Center-run, vicious 24/7 stalking harassment by their Infragard mercenaries (plus criminal gangs) and all which that entails (home break-ins, pet murders, slander campaigns, vandalism, etc.). As victims are killed off, new ones are always added onto the Homeland Security conveyor belt of apparently non-ending expendable citizens. Is this how America dies?

I implore you to shut down this program, investigate and prosecute all those who turned the American Dream into the American Holocaust. Let swift and severe justice return to America and let those who sought to destroy us pay the ultimate price for their betrayal.

Respectfully,

Karen M. Stewart
