

Notice of Indictment of crimes against humanity and the economic terrorist attack and genocide agenda perpetrated on the United Kingdom

As a standing MP your party has openly supported an economic terrorist attack on the United Kingdom by supporting ministers acting dishonestly and Ultra Vires to destroy the country's ability to defend itself from this attack by implementing rules that have devastating and long term implications, which in addition disable any form of resistance to their crimes breaching all other primary legislation. This action combined serves to assist the subterfuge of the known asymmetrical attack on our countries.

Your party's full support of the deployment of 5G (DEW) a direct energy weapon system on the streets of the United Kingdom and the UN resilient SMART City agenda to reduce Carbon dioxide emissions that increases the biological life threatening toxic untested unregulated uninsurable radiation densification in breach of the 2012 Social Care Act. This illegal, unlawful increase in radiation pollution has been planned to utilize the known contaminated vaccination (Bio weapon) to increase the toxicity of the radiation pollution using metal nano particulates and various pathogens that are activated using electromagnetic radiation frequencies. The deployment and agenda is in breach of a number of domestic and international laws and is a well-planned mass genocide that includes your family, friends and constituents. The depopulation agenda of the five eyes Countries in particular are part of a China based drive to pursue a communist takeover of the democracies across the west while creating the financial dependency on the attacker all required to control and subdue the western capitalist economic system and its ability to resist their military and technological might.

Your possible ignorance of this well planned attack on the country by foreign forces, might explain your inability to contribute to the stopping of it. You might for example be unaware of China grooming British elites through the 48 Group as well as the dissemination of propaganda by the(WHO) World Health Organisation, as well as subversion by infiltration through common purpose agents embedded in the NHS, NMC, BBC, PHE,

OFCOM and in various academic institutions that have been shown fabricating and overstating the virus statistics to terrorize the population after watching the Vaccine 5G weapon tests in WUHAN China causing mass casualties and death.

There are concerted efforts by many in these organisations to pervert and conceal the published peer reviewed science and replace it with pseudo-science all part of their terrorist propaganda to wage a memetic war of disinformation via social media and the national press in order to discredit the main scientific consensus on the dangers of untested unlicensed uninsurable technologies fostered onto populations in breach of the law.

We have the Prima Facie evidence of these crimes against the people within the planned terroristic agenda supported by your party machine, which includes strategies which until now you may not have been aware of. These political strategies are in breach of the 2000 Terrorism act and part 1 of the 2006 Terrorism act.

- a. Part 1 a - Encouragement of terrorism
- b. Dissemination of terrorist publications
- c. Preparation of terrorist acts
- d. Section 9 making and possessions of devices or materials.
- e. Section 11 terrorist threats, relating to devices, materials or facilities.

Agents of the plan outlined, have falsified Corona virus statistics using a contaminated PCR test that both the official scientists relevant ministers and test manufacturers have all admitted does not even establish the presence of the so-called 'Virus' whose actual existence has never been properly established by controlled virological isolation of a purified viral isolate. This strategy has been used as a false basis to shut down the country as part of the 201 pre-planned lock step lock down agenda. An agenda calculated to destroy the country's economy to shut down the legal system to stymie all potential redress while simultaneously attacking our democracy, legal rights and freedoms. You have been told this lock down is

only a temporary measure until the virus can be contained. This temporary measure narrative is a deception and you have been lied to. The planned lock down will not cease until the Country our democracy and laws are totally destroyed to enable the communist dictatorship and genocide to occur.

The Executive branch and its foreign supporters including the World economic Forum (WEF) have laid out their fourth industrial revolution in 2019 a subterfuge to usher in the Fourth Reich by the same financial supporters of the Third Reich using China as the neo fascist dictatorship hub for the facilitation of the democratic take down using weaponized technologies including artificial intelligence advanced robotics, gene editing technologies that interface with the 5G network to spy, control and attack the environment and population.

This notice is to inform you of the subterfuge of this well planned and thought out collective crime in breach of a number of domestic and international laws as already stated, with a view to the issuing of international arrest warrants against those who continue their support of this genocidal agenda on the people of the United Kingdom using the Police to enforce the illegal and unlawful lockdown and destruction of the wests economic system.

Key factors in creating pathological blood coagulation (DIC) and lung disease (SARS – COV) are Radiation pollution and lower Oxygen intake, both of which detrimentally affect the immune system.

The mask wearing dictate has no robust scientific basis to its introduction and no known safety benefits to the population only the opposite as it inhibits Oxygen. Masks in relation to virus size have no safety benefit to the wearer. The virus particulates are smaller than the smallest mesh size of the best masks so masks only create a false sense of health security. The masks are advocated under the guise of a pseudo -science agenda of agents operating without question in government and media organisations to cause sickness across the country increasing pneumonia and corona virus symptoms.

Microwave radiation is a known immune system suppressor. In addition microwave radiation triggers the same kinase pathways to cell morbidity as viruses can trigger – the symptoms being the same are wrongly attributed to corona virus statistics as the post mortems results of victims confirm the radiation pollution link.

The discovered nano metal contaminants in vaccines increase the toxicity of this radiation due to their localised antenna radiation and their dialectic property effects - bringing about microwave hotspots inside the brains of victims.

This tyrannical government can only carry on this agenda with your collaboration and support. You are not immune to the planned agenda and in fact a target of it. Under their terroristic plan, democracy is dismantled. The requirement for voting and your contingent position as a representative of the people you once served to become utterly obsolete.

As a result and in response to this madness truth requires us together to stymie this Chinese centred subterfuge and its agenda of Genocide. It is necessary so to encourage you and others in Parliament to resign from their parties now and join the SaveUsNow party. We know of the system of control within your party to shut down any opposition to their plan and to silence you preventing you from speaking out on behalf of your constituents on these particular matters which is your parliamentary duty.

We are a growing movement of constituents across Great Britain building our resistance against this terrorist agenda so that we can uphold the rule of law, save our democracy, our lives, as well as our well fought for freedoms from the tyranny that has been planned and which is coming if we don't stop it.

Your duty as the representative of the people in Parliament is to stand up against this attack on our democracy. To uphold the rule of law and our freedoms. If you can't for whatever reason and we anticipate there may be some who cannot or will not resist the untruth of this tyranny, then you are obliged by truth to stand down. If you can and will stand up, then join us and together we can make a window of opportunity to save the people and

save you from what is coming. It is now time for Great Britain and the Great British people to secure our unwritten constitution, our laws and to save our democracy and freedoms.

On behalf of the SaveUsNow party and movement.

Your current constituent. Address _____
