**Dear Thomas Koch, Charles Baker, William Frances Galvin, Maura Healey,
Joseph Bonavolonta, Christopher Mason:**

**I am writing to you today to follow on my previous letters to some of you, and
my demand letter to former Attorney-General William Barr, all of which can
be found online at my web site, as a notification and a courtesy;**

Affidavit of Fact;

1. As you know—without cause, without reason, for **No Reason** whatsoever--you (government locals in Quincy and Massachusetts in general) have wrongfully watchlisted me and literally human-trafficked me into multiple deadly US Air Force, DARPA, CIA, NSA and other clandestine, non-consensual experimental projects involving nanobiosensors, RFID implants, anti-personnel DEWs, and neuro-surveillance starting in late 2013 and apparently continuing to the present day;
2. As a consequence, for 8 years now, I have been subjected to incredibly brutal electromagnetic weapon assault, covert implanting, continuous radar tracking, and multiple weapon assault: including hyperscalar radar weapons, quantum tunneling weapons, microwave pulse weapons, milliwave active denial systems weapons, very loud 24/7 LRADs (projected sound hits on radiator and walls of home), infrared heat pulse weapons, plasma weapons, and nonStop noise harassment, community monitoring, drones and helicopters and small planes constantly overhead, remote neural monitoring, and neuro surveillance;
3. My neighborhood in Quincy has been activated against me, and has been turned into a Stasi concentration camp, with parked and hovering drones, helicopters, satellites, and vehicles constantly zooming up and down the street and strangers using radar tracking on my person; In addition, neighbors have been pushed into continuous tracking activities, while mini fusion centers and MK ULTRA houses have opened up all around the neighborhood, with neighbors' houses equipped with antennas, microwave emitters, ELF-generators and SQUIDS, and fusion center contractors occupying neighboring houses, employed in 24/7 tracking and attacking remotely night and day, subjecting me and my family to remote EMF weapon attacks and sleep-deprivation attacks with heat weapons and RF/ELF pulse weapons;
4. These assaults on my body and brain have intensified over the past six

months, since I returned from a visit to my parents' in India in July 2020, and have become **barbaric, brutal, and vicious** lately, with intense, sadistic assault of radiation pulse weaponry on my private parts, my head, my heart, my organs, my nerves, my eyes, my face, my back, my arms; **What I am being subjected to currently is nothing less than continuous, brutal, technological torture; I am literally under continuous, criminal assault and battery with high-grade military microwave and acoustic weaponry;** Were it not for my learned ability to shield myself to some extent, I would not be alive today: I have been and continue to be subjected to **extreme cruelty and continuous assassination efforts**—from both right next door and from a greater distance;

5. My attempts from late 2013 to find out what on earth was happening and why have led to multiple FOIA requests, deep research, and publications as an investigative science and technology journalist; I have uncovered definitively that non-lethal weapons-testing is being run all over USA, that DARPA and NIJ are working together on developing and testing numerous “limited-effect technologies” including millimeter wave tech and acoustic neuroweapons, and that police departments and fusion centers are using anti-personnel directed-energy weapons including through-wall millimeter-wave surveillance tech as “crowd control devices” and “peace enforcement;” I have learned about the use of drones including rooftop drones, satellites, handheld satellites, and triangulation for GPS tracking, WBANs, nanobiosensors and AI-run supercomputing linking the Internet of Things, Internet of Bodies (dystopian visions of techno dictators), and radio frequency weapons of different kinds; I have learned the CIA and DARPA and various Universities are running clandestine neuro modification projects using neuroweapons which “Dr.” James Giordano has now made public, as have Elon Musk and DARPA; I speak, write, and publish on these technologies; I am working on a book currently to share the fruits of my research in several fields, including in criminal justice;
6. Through it all, I have continued to write, research, and run interviews as a

journalist and public educator and human rights activist; my work can be seen online at The Everyday Concerned Citizen and elsewhere, and my daily-and-nightly-radiation-inflamed and sleep-deprived face which does not Stop my overriding resolute warmth and radiance of spirit can be witnessed on all my podcasts at Ramola D Reports on Youtube, Bitchute, Brighteon, BrandNewTube; “Delta programming” from insane CIA sadists does not catch when someone is innately a peace-and-truth-centered being with a powerfully positive outlook on life as I am;

7. In recent times, it appears my writing and exposure of these unlawful experimentation and weapons-testing contracts in the USA have been so successful as to warrant major character-assassination disruption projects launched against me by the NSA, CIA and other agencies through purported human rights activists appearing out of nowhere to work closely with me—to expose these unlawful operations--while in fact operating as agent-provocateurs, saboteurs, and smear-campaign-runners: these defamation and libel crimes of ex-CERN “Dr; ” Katherine Horton and ex-NSA Karen Melton-Stewart are **exposed on my website**;
8. The defamation and libel crimes committed however by your government employees and agencies are no less egregious; They are after all what has Started this endless cycle of crimes on my body; Without falsified records and character-assassination operations in my neighborhood--based on thin air--which you have conducted, you would never have been able to target and traffick me in this ridiculous fashion or any way at all;

Really: Can you explain to me how an Art and Creative Writing teacher and award-winning poet and fiction-writer and pacifist, non-violent activist against cruelty to humans and animals and dedicated mother—with a long-standing career in teaching college writing, **no criminal record, no connection to terrorism, no connection to espionage, no connection to crime of any kind**--working quietly at home on a novel, children's books, poetry, and a literary quarterly, while running art, Nature, science, and creative writing workshops for children could

possibly become a legitimate subject of surveillance and investigation by a Massachusetts Fusion Center conglomerate of Intelligence and Security agencies supposedly engaged in **Counter-Terrorism?**

9. Please allow me to answer that for you: **there are No grounds for any kind of counter-terrorism surveillance or investigation on my person, let alone 8-year-long 24/7 electronic surveillance and military and Intelligence experimentation which involves the atrocities of forced RFID implants, overt community surveillance, Neuro Surveillance, and the constant assault with deadly, carcinogenic electromagnetic weaponry on my person; Every single one of these assaults on my person is an actionable crime of extreme proportions;**

Enumerating the Crimes:

The crimes committed on me are enumerated as follows:

1. Criminal and fraudulent labeling/listing, defamation, sabotage:

This involves the secretive, undisclosed yet plausible – and entirely fraudulent – submission of my name (given my observed, witnessed, recorded neighborhood and community actions) as a “possible terrorist or spy,” “domestic extremist,” or “violent extremist,” or “Known or Suspected Terrorist” necessitating “criminal investigation” under the ludicrously extensive definitions of the Patriot Act, possibly using a secret National Security Letter, possibly using a secret FISA court warrant, possibly using falsified records, necessitating intensive surveillance in my neighborhood and local community, **the spreading of lies, defamation, and slander about my person and character—including as a prostitute, and including as a mentally ill person**, as my neighbors gave me to understand--and the complete sabotage and slandering of my upto-then wonderfully successful and joyful small home-business running creativity workshops in art, science, and creative writing for children; (Please visit my children's workshop website,

“www.artcreatewrite.com” for more information on my workshops;)

This was/is **the first crime in this series committed against me, and a crime of mammoth proportion**, because it has opened the door, via criminal, unConstitutional laws and military directives, to further crimes: **unlawful surveillance, unlawful physical assault with radiation weaponry, unlawful and non-consented “use” of my person in weapons-testing contracts clearly involving the USAF**—as documented in my several FOIA requests to the USAF, OHRP, and FAA at Muckrock; **com- and unlawful “use” of my body and brain in putative neuro-technology, “individual control,” and “behavior modification” contracts and covert projects clearly involving the “covered agencies” of the CIA, DIA, DARPA, NSA—or some variable thereof;**

Please Note: This is a crime; Fraudulent and random “putting people under surveillance” or “opening an investigation” on non-terrorists and non-spies and non-extremists in hopes of Parallel Construction and then proceeding to *slander them wholesale with outright lies, defamation, and libel* to their neighborhood is Fraud and Crime both: it is tortious interference with my work as a community workshop-leader and now as a journalist;

2. Criminal, non-consensual directed-energy weapons-testing, neuro-experimentation & torture:

As mentioned above, and as has been fairly demonstrated to me in my neighborhood since November 2013—with the constant presence here of drones, planes, helicopters, cars, SUVs, and strangers wielding DEWs, currently occupying nearby houses, and zooming into my street continuously in shifts—this involves **the clear use and abuse of my body** (and yes, I have documented, recorded evidence of this abuse) as a non-consensual human subject in nefarious weapons-testing and neuro-experimentation contracts being run by the USAF and the NSA/CIA/DIA,

no doubt with other agencies assisting, and collaborating in the use of radio frequency signals from satellites, cell towers, cell antennas, sensors and antennas concealed in street lighting, parked cars, houses, properties, and yards in my neighborhood; This rigging of properties and cars in this neighborhood is readily evident—through EMF detection meters—and has been observed and recorded in process (some of my EMF-recording videos are on my Youtube “Ramola D” channel);

The intense pulsed radiation directed at my person through these means and through the use of portable Directed-Energy Weapons or/and cell phones employing lethal frequencies, being handled both by neighbors and motorists on roadways, has spanned the gamut from millimeter-wave weapons, pulsed radar, masers, lasers, to X-rays, ultrasonics, remote conducted-energy devices and bone-conductance weapons, and has also been used in conjunction with intensive aerosol (chem trail) spraying, to induce instant illness; In terms of bodily assault: over the span of the past eight years, and occurring on a continuous, 24/7 basis, ***I have been pulse-hit on every organ on my body, every muscle, every joint, every organ, with repeated attacks on my bladder, uterus, heart, head, knees, and face; I have also been burned with apparent lasers which have created cigarette-mark-style burns on my breast and stomach; I have also been burned, possibly with millimeter-wave weapons, with second-degree burns complete with blisters appearing on my body—on my left breast, on my left-hand ring finger, and on my throat--on three separate occasions since September 2017: photographs to be posted on my website shortly; I have been assaulted multiple times with painful nanotechnology attacks on my face, throat, left fore-arm, and upper back coupled with intense radiation pulses sent to the sites of attack, causing inflammation and lesions: I currently am still trying to treat these persistent assaults with herbal naturopathy, my preferred healing methodology;***

Heart Hits: Among other occasions, in June 2017, for six weeks, since publishing evidence of crimes nationwide in articles on my website—featuring in June the extrajudicial torture of “Dr.” Millicent Black and “Omnisense”—I was consistently assaulted in my heart with brutal pulsed

microwave weapons; in fact, hitting my heart with pulsed microwave or ultrasonic weapons appears to have become a nonStop Black Ops pastime: I have been hit this way continuously, awake and at night, for nearly 7 years now; I wear permanent shielding at my heart to deflect these obvious assassination attacks; Some of this heart-focused-remote-attack is reported in the article “Massive Heart-hits...” at my website Some is reported in a Twitter thread with the hashtag #ForTheRecord, Twitter id @EccEveryday; Some is reported in a recent Newsbreak podcast I posted, Newsbreak 103, after the sudden death of health activist Brandy Vaughan;

Burns And Stabbing Pains: As noted above, I have been hit on my chest and back with millimeter wave or high-powered microwave weapons which raised second-degree burns, complete with blisters, on my skin (recorded in photographs); this assault has been punctuated with precision energy weapons inducing stabbing pains on my skin and nerves; In Fall 2017, the month-long millimeter wave assault (I suspect from a parked drone above) on my ring-finger created major, recurring blisters and whole-hand inflammation which necessitated a visit to Brigham and Women's Hospital in Boston where my wedding ring and other rings were cut away from my finger by an orthopedic surgeon, at great expense to myself;

This pulsed radiation is physically measurable, detectable as **external**, and can be blocked, partially, also evidencing its external origination—these are **external electromagnetic signals**: please see further information below;

Please Note: The use of weapons on my body—however some elements in government have tried to justify it wrongfully, under military weapons-testing contracts which the FBI and local government may imagine is **legal** because I have wrongfully been “put under surveillance”—is **Calculated Criminal Assault and Battery, Human Trafficking, and Torture: All these are Crimes Against Humanity;**

In other words, there is **Nothing** legal about what all of you together are jointly and legally responsible for doing; **Is 24/7 Assault and Battery by the FBI legal? (If it is, then the FBI is a criminal organization and should be shut down;) Ditto for the NSA, CIA, DHS, DIA, DARPA;**

These are absolutely barbaric crimes against humanity, and that's the bottom line;

Americans are literally being tortured in their homes, including myself, while you as government officials sit back and permit it; This grievously reflects on your personal character, as government employees, and as supposed guardians of Public Safety and Security: I am not being “kept safe” by 24/7 Remote Assault and Battery, obviously, and nor is any other American;

Nor is anyone else being “kept safe” by assaults on me, falsely marked as a “putative terrorist, extremist, and mentally unstable”: this Quincy street and neighborhood have become a rabid, noise-harassing and car-speeding Ghetto, as I have reported previously to Thomas Koch, Mayor and Kevin Mulvey, School Superintendent (letters and reports on my website): my daughter, a sophomore in high school, is at home online currently (thanks to the COVID Psy Op) trying to study while chaos and mayhem reigns on the street and sky, thanks to your brilliant ideas of unlawful “surveillance; ”

The neighbors are also victims of Psychological Warfare being run on them: Lies and slander fed to them with threats or co-opting bribes have led to them engaging in 24/7 community “monitoring” in submissive compliance to FBI lies and programs of assault on myself, their (once-wonderfully-warm-but-now-shocked-into-silence) neighbor (who has taken care of their children, run art workshops for them, sent vanilla cupcakes and hot soup over to them at various times), stunting their psychological development and ability to function as productive community **members; they have all turned into compliant, Communist, snitches, spies, surveillers, trackers, attackers, noise-harassers now,**

their children included: focused on targeting me with weapons, not focused on community health, service, or care, nor on their own lives, no longer free to live their own lives free of false-focus on me, the 8-year-long falsely-marked-terrorist in their midst;

“Domestic terrorism” is most definitely being run here—run and condoned by the FBI, DHS, City of Quincy, and Commonwealth of Massachusetts governments;

3. Criminal, non-consensual RFID implantation, tracking, & torture:

Additionally, by opening the door to “surveillance of every kind” on me, each of you have permitted, condoned, authorized, and executed **violence** on my body with non-consensual tracking and torture implants; This involves covert RFID implants, whose presence has been confirmed with an RFID detector – whether in relation to Tracking and Surveillance or Weapons-Testing and Neuro-Experimentation – and the additional abuse of my body through covert access, **overt sharpshooting** (in public, on two occasions, as documented earlier), and obviously non-consensual intrusion of multiple RFID microchip implants, Bio-MEMS (micro electro-mechanical devices), and nanotechnology sensors into my body, which have permitted, on a continuous 24/7 basis, remote frequencies being pumped into my body, remote microwave under-the-skin heating, remote activation of implants, resultant pain signaling, and thereby **continuous accessing, traumatizing, and torture of my body;**

Please note: In other words, by non-consensually and multiply implanting my body, including **endangering public safety** through **the operation of violent, sharp-shooting devices in public places**, the terrorizing clandestine operatives here (USAF/ AFRL/ CIA/ DIA/ NSA/ DARPA/ USMC/ USARMY/ SPECIAL OPS) have non-consensually established a Wireless Body Area Network of RFID implants in my body which have permitted them to send **Torture** signals to my body: variously, on different

occasions: frequent sub-dermal heating of back, neck, shoulders, head, extreme migraines, pulsed incontinence, electro-shocking—both slight shocks and violent shocks, burning of the spine at night as a means of sleep-deprivation, extreme abdominal and kidney pain, extreme lung constriction and pain, constant vibration from head to toe, vibration of my spine, extreme pain at the site of implants, particularly a right breast implant and a left shoulder implant, but also all other implants: on the soles of my feet, on my upper arms, in my ears; Clearly this is criminal;

4.Criminal clandestine RFID tracking, surveillance, stalking, harassment:

Additionally, what the Quincy and Massachusetts governments have done is unleashed wide community participation in torturing and assaulting me—via nonStop activation and tracking of implants and surveillance at the community level, of my person, across the USA and abroad;

This involves the continuous and overt surveillance and RFID/GPS tracking of my person throughout the community and Metro area, using Infragard, Neighborhood Watch, Community Policing and other initiatives to rope in neighbors, retail store clerks, and others, crowding and obstructing in stores and on roadways, obstructive and hazardous driving with much COINTELPRO action involving flashing, brighting, obstructive parking, and the use of obviously trained Psy Ops in harassing actions and words in neighborhoods, stores, malls, gyms, churches, and elsewhere;

This extreme assault of radar weaponry has followed me across several states of the US, in Europe, and in Asia on travels; In Quincy, Milton, Boston, Braintree, Weymouth, and other Massachusetts towns, I have been assaulted from generators, emitters, antennas carried in UPS vans, FedEx vans, USPS mail vans, and vans and trucks belonging to National

Grid, Amazon, Comcast, Xfinity, JUN Brothers Construction (neurohits), various masonry/landscaping/construction and utility vans, FM Generator vans, Capitol waste and recycling, Sunrise waste and recycling trucks, fuel-oil trucks, Vietnam Vets and Big Brother trucks, and others;

5. Blacklisting and employment sabotage:

Further, the FBI, Infragard, and other fusion center operatives and contractors have deliberately destroyed my budding small business and means of employment;

This has involved the overt business sabotage of my after-school/summer camp creativity workshops for children – by contacting the parents of the children in my workshops, defaming and slandering my character to these parents, and/or fraudulently claiming I am the legitimate subject of a government “investigation” making me a dubious character to permit association with, in tandem with aspersions on my morality and character (a guest at a neighbor's pool party openly referred to me as a “nightwalker” as in “**They** say she's a nightwalker,” and this neighbor, David Mok, who was clearly recruited to access my computer and observe my browsing and private work on my own computer suggested audibly—through the speaker on my laptop-- “(he) may have found something” when I researched the term and concept of “pedosadism” as part of my work honoring and highlighting activism at my solutions and investigative journalism media site, The Everyday Concerned Citizen) -- and the covert sabotage of my teaching applications online to resume my successful and highly-acclaimed career in teaching Creative Writing at the University level;

My resume and publications can be seen online; My author website is “www.ramolad.com”; my literary journal can be found at “www.delphiquarterly.com”; my media site and current blog can be found at “www.everydayconcerned.net”;

Further, as a journalist and broadcaster I happen to be a quite public person on the Web; everything I say I am can be corroborated online; No-one, and in particular, no federal “investigative” or “intelligence” agency need go around spending millions of dollars and setting up secretive investigations of me in the false name of “national security”; **very clearly, I am a highly accomplished, highly creative communicator and public educator, highly dedicated community activist, who has been targeted locally by a corrupt faction of criminals in Quincy, Massachusetts -- precisely for my profile as creative and accomplished communicator and educator? – for exploitative surveillance and experimentation in itself illegal, unlawful, and criminal as well as barbaric and inhumane: these are actionable crimes;**

Reporting the Crimes:

In striving to report, complain, and research these crimes against my being and character, I have written previously to some of you, including to the Attorney-General of Massachusetts, the CIA, the FBI, DHS, the US Secret Service; I have both written to and spoken at length to staff at the offices of Senators Ed Markey and Elizabeth Warren; I have made numerous FOIA requests to explore my situation to the CIA, FBI, FAA, USAF, DOD; I have sought to learn more of these crimes of organized EMF assault, electronic surveillance, and covert experimentation/ weapons-testing against Americans through emails and FOIA requests to the CIA, DHS, USAF, OHRP, DHHS, Massachusetts Dept; of Public Health, and others; I have also sought to work with others to investigate, research, and report on similar EMF assaults and non-consensual neuro-experimentation in articles and interviews published online at various news sites, including my own, *The Everyday Concerned Citizen*;

I have been stonewalled and Glomar-response'd, my FOIA requests have been ignored (Mass; Dept; of Public Health, DIA), hands have been wrung, obstructions and delays placed in my path;

To specify:

The FAA, after a year of prevarication, during which they admitted that “the Quincy City administration is aware” of **the constant planes flying at about 2000 feet over my house and yard, all day, every day**, informed me they could not give me any information about these flights, a determination I appealed, and which is still sitting on appeal **after 7 years;**

The USAF, when requested to provide evidence of Informed Consent and their Statement of Work in their 7-year 2013 DEBR (Directed Energy Bio-Behavioral Research) contract with General Dynamics for EMF weapons-testing, not merely provided me redacted and incomplete documents, but withheld a large portion of what was requested as exempt from FOIA, and sent in older documents from previous contracts;

The FBI told me they could not tell me if I was under investigation, and claimed a FOIA exemption to say so;

The CIA rejected my request for Informed Consent on research they were conducting within the USA with a Glomar response which could “neither confirm and deny,” referencing exemptions, and stating they could do anything they liked under “sources and methods of gathering Intelligence,” later turning down my appeal (despite my pointing out that in refusing to address the question of Informed Consent directly, they were essentially stating **they could not confirm receipt of Informed Consent from the humans they were experimenting on within the USA**—a conclusion they did not and apparently were unable to dispute);

OHRP (The Office of Human Research Protections) with the Department of Health and Human Services (DHHS), which purports to protect human subjects at a Federal level, said **they could not protect any human subjects not under a DHHS contract or receiving DHHS funding;** (I

learned shortly afterward that Informed Consent, a sacrosanct Nuremberg Treaty requirement, is no longer required in currently-lawless America, where Americans, like unprotected Lab Rats, can apparently be experimented on, non-consensually, by multiple agencies and departments, including the Department of Defense, the Central Intelligence Agency, and others, including Universities, all by putting them randomly “under surveillance”-- a surefire means to permit corruption, abuse, and human trafficking into lucrative Lab Rat non-consensual experimentation projects, paid for with tax-payer funds via Federal agency allocations – which is exactly what is going on;)

The Chief of Police at the Massachusetts Fusion Center told me he could not divulge to me the list I had requested of non-lethal weapons being used on the street in Massachusetts, as a matter of public safety— although I was obviously asking (and pointed out that I was asking) **as a matter of public safety**, so citizens are rightfully made fully aware of the precise arsenal in the hands of local police;

The DHS told me they had no documentation of contracts or agreements with neighbors in whose driveways externally-originating cars and SUVs daily and nightly park as they a) zoom into our block in precise patterns, b) park, and c) direct measurable microwave pulses into my residence and onto my person; Further, the DHS, supposedly concerned about “Homeland Security” evinced **no interest** in my reports of multiple, continually-changing externally-originating cars and SUVs zooming— literally pounding at high speed--into my neighborhood all day and all night—in a specific pattern, revealing their organized, clandestinely-directed behavior; **What is that if not evidence of complicity?**

Most of the FOIA requests mentioned above may be seen at Muckrock; com, under the name Ramola Dharmaraj; (My correspondence with OHRP was via email;)

International Treaties, Conventions, State Laws, Being Contravened:

By the criminal use of these deadly radiation and acoustic technologies on my person, and on all Americans being similarly assaulted, in deadly programs involving non-Stop electronic assault, sleep-deprivation, and implant activation, all of which add up to Torture, you are in flagrant violation of all following International, National, and State laws, treaties, and agreements as well as Common Law, Natural Law, Divine Law:

Nuremberg Treaty
Geneva Conventions
UN Declaration of Human Rights
Article 7 of the Rome Statute
International Human Rights Law
International Laws on Torture
Common Law
Natural Law
Divine Law

Part IV CRIMES, PUNISHMENTS AND PROCEEDINGS IN CRIMINAL CASES

Title I CRIMES AND PUNISHMENTS

Chapter 265 CRIMES AGAINST THE PERSON

Section 43A: Criminal harassment; punishment

Section 43A; (a) **Whoever willfully and maliciously engages in a knowing pattern of conduct or series of acts over a period of time directed at a specific person, which seriously alarms that person and would cause a reasonable person to suffer substantial emotional distress, shall be guilty of the crime of criminal harassment and shall be punished by imprisonment in a house of correction for not more than 2 1/2 years or by a fine of not more than \$1,000, or by both such fine and imprisonment; The conduct or acts described in this paragraph shall include, but not be limited to, conduct or acts conducted by mail or *by use of a telephonic or telecommunication device or electronic communication device including, but not limited to, any device that transfers signs, signals, writing, images, sounds, data or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic, photo-electronic or photo-optical system*, including, but not limited to, electronic mail, internet communications, instant messages or facsimile communications;**

(b) **Whoever, after having been convicted of the crime of criminal harassment, commits a second or subsequent such crime, or whoever commits the crime of criminal harassment having previously been convicted of a violation of section 43, shall be punished by imprisonment in a house of correction for not more than two and one-half years or by imprisonment in the state prison for not more than ten years;”**

Documented Existence of These Military, Intelligence, Criminal Justice Surveillance and Control Technologies:

There is ample evidence through documentation, patents, whistleblower, and experimenter testimony of **the current existence of (classified and unclassified) deadly EMF and sonic “non-lethal” weapons of Electronic Warfare**, including satellite technologies, aimed at “anti-personnel effects,” by virtue of long development through the **Joint Non-Lethal Weapons Directorate, Department of Defense**, in the

Continental United States of America (“CONUS”);

Several military documents reveal the military's obsession with understanding the “bio-effects” or “anti-personnel effects” of these electromagnetic weapons on human bodies through research, experimentation, and calibration, including **Bioeffects of Selected Non-Lethal Weapons** and the **USAF Radio Dosimetry Handbook**; Detailed information on the nature and capabilities of electronic weapons in use today may be found in the investigative reports of Dr; Nick Begich in his books “The Betrayal of Science, Society, and the Soul”, and “Controlling the Human Mind: Tools for Political Control”; Satellite usage in electromagnetic warfare on civilians is detailed in John Fleming's “The Shocking Menace of Satellite Surveillance”; An ex-DARPA engineer, Paul Batcho, has confirmed the research of others in revealing that cell towers and GWEN towers conceal a range of reserved military frequencies;

Efforts have been made at the level of county government as well as in Congress and worldwide to address the matter of non-consensual experimentation , and usage of electromagnetic weapons and RFID tracking on civilians; These include the Richmond County, CA Ban, Senator Dennis Kucinich's Space Weapons Act, statements made by the European Parliament, the Polish Minister of Defense, Congressman Glenn's testimonial on human subject protections, Representative Jim Guest's letter (on my website);

As noted earlier, I am aware the Department of Justice and Law Enforcement are also using various of these remote-access human control, biometric and neuro surveillance, crowd-control and RFID tracking technologies, through documented contracts with the Department of Defense; The US Brain Project and other Neuro/Artificial Intelligence projects run through Universities in conjunction with Defense bodies, the CIA, the DIA, the NSA, USAF, US Navy, USMC are all engaged in c/overt experimentation projects on American soil;

Given these facts and the indisputable existence today of Electronic Warfare weaponry (directed-energy weapons or DEWs) seeking “anti-personnel effects”—**essentially, the degradation and destruction of human bodies and human brains, human organs, nerves, muscles, joints, and systems**--with deadly radio frequencies, it is facile in the extreme, patently false, and supremely criminal for Law Enforcement professionals to then profess ignorance and actually arrest and commit to Psychiatry wards those Americans reporting the crimes of electromagnetic assault on their person—as I have frequently reported on, in my work as a journalist and human rights advocate assisting victims of crime; This practice has been ongoing, and is a sad expression of the state of affairs uptil today;

Currently however, my investigative research and reportage as a journalist definitively establishes, for all reporting Americans and Neuro/DEW crime victims worldwide, **the existence and usage of these remote-access human-control RF, Sonic, Scalar, Directed-Energy Neuro and Bio Weapons, in numerous operational targeting, testing, and usage scenarios by DOD, DOJ, CIA, FBI, and all the other agencies and contractors they contract with;**

My research and reportage also establishes **the existence of over-four-decades-long undercover and criminal programs of political targeting and abusing select Americans with electromagnetic weaponry via satellites and local covert installations;**

Those targeted are usually accomplished and intelligent, engaged in civic endeavor and community participation, targeted for life-takedowns and community-reputation-destruction—as myself: **Americans—who are moreover charged with no crime, guilty of no crime, secretly blacklisted, and afforded no Due Process, while being hammered night and day with deadly, carcinogenic pulsed microwave radiation, active denial heat technology, covert implantation, chemical weapons, and neuro/bioweapons; Non-criminals, non-combatants, whistleblowers,**

journalists, activists, and community leaders and influencers are being targeted & miscast as dangerous: clearly by a criminal faction in government;

My Work as a Journalist and Human Rights Advocate:

My very public work as a writer, journalist, broadcaster on my video channels and websites is open for all to see; There is absolutely Nothing whatsoever in my stance as a critically-thinking and expressive, thoughtful, analytical op-ed commentator to warrant any hint whatsoever of activity that could remotely be called concerning, violent, extremist, terroristic, inciting or provoking of harm to anyone, including the very perpetrators of these very wrongful crimes against me and against many others whose cases I have reported on; Make no mistake: I reserve all rights to think freely, question deeply, research widely, and write clearly; I also reserve the right to speak and write creatively and satirically; **These are not crimes;**

My work as a writer and broadcaster helps expose crime and corruption, helps support the work of those exposing crime and corruption—as recently my news panels with UK Police personnel such as Mr; Anthony Stansfeld, Thames Valley Police and Crime Commissioner, Mr; David Seaborn Davies, Former Head of Royalty Protection, Scotland Yard, and retired UK and US police detectives and chiefs Michael Ough, Dave Laity, Daymond Jones, and Jon Wedger—and helps advance the cause of human consciousness; I am keen to inform others, educate others, and help shape the thinking of all towards ethicality, morality, conscience in my close examination of current-day science and technology—critiques and insights in fact which would also help all of you in Government understand better what current-day technology is doing, and help make a better world for your children and grandchildren;

My Status as an American and a Living Being and Live-Life-Claimant:

As I have noted in my Public Declaration of Non-Consent, I align myself with the original jurisdiction of the American Republic and the US Constitution which protects the innate sovereign rights and freedoms of all Americans; I am not a member or citizen of any fraudulent US Inc; corporation which is defrauding the free American people with an overlay of statutory systems; I am taking all steps to documentedly establish this fact after having myself been fraudulently deceived during US passport applications; I have taken steps to take ownership of my ALL-CAPS-NAME and my daughter's, which I understand is the false-instrument by which people are being incorporatized and seen as chattel within US, Inc; and its umbrella British/Vatican corporation, the Crown Corporation; I have also taken steps to declare myself alive and step out of archaic notions of Vatican ownership of people-seen-as-lost-at-sea and dead-at-birth and needing-to-be-towed-by-them by cutting loose from their Slave Ship with a live-life-claim; as a live-life-claimant, I have returned to the land in my own canoe, and am standing on soil, no longer subject to statutory systems but holding firm to Divine Law, Natural Law, and Common Law: Do No Harm being a central motto; In this, I stand with the principals of the Purple Thumb Community, who have witnessed my being-alive, and who stand on the soil of what they name Aotearoha or the Earth of Love: the soil of the earth everywhere, not subsumed under Maritime Law, and the soil of living in peace, harmony, community, caring, conscience and ethics, consciousness and truth, creativity and life; I reject all use of weapons of any kind on anyone, and stand firm in **my private status as a peace-and-truth-centered writer, educator, and journalist**; The flags (of Peace) used by the Purple Thumb Community and their founder, Lady-Crown Tutikatuku III, the Crown of the Mauri Nations include the Aotearoha flag, and the Kotahitanga United Tribes flag of the indigenous Mauri people; **my own live-life-claim is protected by these flags**, as well as the flag I'd like to adopt, the beautiful Great Flag of Peace of the Iroquois (at head of this document), and the

diplomatic-immunity pine-tree flag I'm in the process of creating, for Pine Haven, my domicile, the whenua or embassy of the Mauri Crown in America; **Please note:** all of this is to say: I am a living being, an American, living “in the Private” and **Peaceful**; Not an “enemy combatant” or “belligerent” who can be “legally put under surveillance” or “legally attacked” by anyone, including government organizations and factions running Asymmetric Warfare on peace-loving, law-abiding Americans with stealth weapons, and rationalizing their atrocious terrorism by calling it “Pre-Crime” “Crime Prevention” “Deterrence” or anything else;

Notice of Liability:

As a living being with a live-life-claim and as an American aligned with the original jurisdiction of the American Republic and as a peaceful private suveran inhabitant of Massachusetts, I claim damages for any assault on my body, my family, or my property by anyone; Currently, my daughter and husband are also being attacked with remote-access radiation weapons: my daughter is being hit in the eyes, the head, the ankles—she recently fell off the front steps and is still limping two weeks later after being hit in the ankle (clearly by a neighbor, possibly by Breanne M Higson at 151 Pine Street, directly opposite, or tenants at 147 Pine Street owned by John Ruane, also opposite, or residents/tenants at 143-145, owned by Hui Grace Katan, also opposite, or, entirely possibly, by Joseph and Samantha Mazzeo of 150 Pine Street, next door, who are all involved in actively using RF & other weapons on me); my husband is being hit in the knees to apparently cripple him, as well as being hit with neuroweapons at night: I have witnessed the slurred speech of inner-voice and brains being forced out of his mouth at night (clearly by a neighbor, possibly Joseph Mazzeo right next door at 150 Pine Street, who is involved in using RF/scalar weapons on me, assaulting him with a silent neurotechnology whose patent can be found online); **This is profoundly unlawful and criminal;**

Those who legalize and permit remote-access assault and battery on me, my family, and my property by “putting me under surveillance” will be held liable for their actions and will be required to pay compensation for damages; My Notice & Fee Schedule for damages is enclosed;

Cease and Desist:

I ask therefore for you to **Cease and Desist** and immediately:

1. **Stop the intensive, continuous, illegal, and criminal Spectrum Assault on my person with deadly pulsed electromagnetic radiation signals from Electronic Warfare weaponry** including sonics, scalar, microwave, milliwave, and remote-influencing neurotechnology, which has been directed my way from November 2013 right up to the present date, February 2021, and which has escalated in recent times, from mid-July 2020 and has been escalating since the time of submission of this joint, widely-signed (nationally and internationally) **Memorandum to President Trump On the Subject of Torture Running Under Cover of Surveillance** in mid-January 2017, and which is objectively measurable, with meters and detectors, as **directional pulsed EMF** (distinct from, and not to be confused with *ambient EMF*) on my person, and inside my home;
2. **Stop the criminal pounding of cars, SUVs, mini-vans, trucks, and private company vans and trucks used in the nonStop electronic surveillance and tracking of my criminally-and-covertly-implanted person** (and I am aware covert implantation is linked to the covert agencies, such as the CIA, DIA, and FBI and the DOD/USAF for trafficking into non-consensual Intel/Military experimentation) **up and down my street and surrounding streets, with loud honking and high acceleration, on a 24/7 basis, ALL hours of the day, including at midnight**, which I have reported to the Department of Homeland Security and received NO evidence of interest about;
3. **Stop the criminal constant flyover of helicopters, drones, and small aircraft directly over my home and yard, or in front of my house at all hours of the day, including each time I step out into my yard, and including at midnight and later, when I retire for the night**, in a Guantanamo-style marking of my lights being switched off, as if I were a high-profile criminal, and as if my house and yard is a Guantanamo-style

concentration camp—something that has been occurring for YEARS now, including on earlier dates I drafted this letter, Oct 17, 2017 as well as right now, this evening, 8 Feb 2021;

4. Stop the outrageously loud hits on my radiator in every room and on the walls of the house, including at midnight and beyond, a distinct assault on the senses and nervous system, and clear desire to fog the brain and keep it from thinking clearly; NOT a measure made for “Public Health”: noise-assaults destroy health;

While I understand that you, as local government officials, may have merely **opened the door** to these extreme attacks on my body and life, you have also **signed off on, sanctioned, and overseen the entire system of “surveillance”** which permits both the public and covert use of these deadly remote-access weapons on Americans;

While I also understand you have literally permitted contracts to be taken out on me, offering me up as “test subject” and “target practice” to military and Intelligence factions, facilitating this 8-year-long program of brutalization of my body and life, and imagine your contracts have validity and need to continue, **this is a notification to you all that these contracts—of bodily exploitation and human trafficking, essentially permitting ongoing electromagnetic rape, sodomy, and remote-radiation heart, brain, and organ assault—Gang Rape with EMF Weapons really: Profound atrocities and Crimes Against Humanity--Cannot be permitted to continue and Must Be Stopped Immediately;**

I believe it is clear to all you are indeed legally and statutorily responsible, by your own statutes and codes, for the crime and torture being executed on me for 8 years by all the various agencies, military divisions, research and academic institutions, and private contractors to whom you have unlawfully granted remote-access to my body and brain (a multitude of networks (worldwide) of private companies, Universities, and research institutions studying neural networks, AI, machine learning, and collecting all my data have cyberhacked in and are evident in IP trace on my PC);

I am not property of your corporations to be trafficked like this; I am not a living sacrifice for Satanic rituals and energy harvesting and brain mapping run by loons in the military and CIA—who instal assassins in the houses next door; I am not property of any person or corporation even by dint of their unlawfully covertly implanting me with “Government” RFID/micro/nano trackers and sensors: these covert implants do not tag me as anyone's property, they are an atrocious invasion of my bodily sovereignty, they are foreign objects detrimental to my health, and they need to be removed;

It is clear the FBI is primarily and heavily involved in the criminal targeting and human-trafficking of people, under cover of “surveillance;” It is also clear that what has been done to me, unlawfully and criminally, against all international and US human rights law, is **extreme infliction of torture, akin to Satanic Ritual Abuse;**

I am in fact in urgent need of true healthcare, and the services of ethical radiologists and surgeons to scan, isolate, and remove all tracking RFIDs and Bio-MEMs used in these human-trafficking and electromagnetic-gang-rape activities via covert implantation in my **8-year-long targeted, mutilated, disfigured, assaulted body and brain;**

For all the reasons delineated in this letter, I hope you will immediately take steps to remove me from your unlawful listings and watchlistings, to start operating forthwith with ethicality, conscience, and awareness of human rights, and to ensure that all the many contractors you have employed here cease and desist immediately from their unlawful and criminal assaults on my body, life, family, domicile, and neighborhood;

Please do not hesitate to consult with me further on any aspect of this notification; Please let me know also by return mail that you have received this notification and will abide by its request; I may be reached via email at “ramolad@everydayconcerned.net”;

I look forward to the complete termination of all assaults on my body, life, family, domicile, and neighborhood; Thank you in advance for your immediate positive actions to restore peace and harmony to my life, my neighborhood, Quincy, and Massachusetts;

All that I have stated herein is true;

Sincerely,
Ramola D
